

SIEMENS

Ingenuity for life

Are you covered?

Having Peace of Mind Advantage + Support

Process Instrumentation Extended
Warranty reduces risks and
protects your investments

Advantage+ Extended Warranties

For peace of mind, all Siemens instruments come with a free one-year manufacturer's warranty. Eliminate unpredictable service fees by protecting your investment with Siemens' Extended Warranty .

Benefits of Siemens Extended Warranty

- **Easy to order**
One time payment with product order
- **Cost Transparency**
No cost for warranty covered repairs during the selected time period
- **High Flexibility**
2, 3, 4, and 5 year warranty periods available (certain restrictions may apply)
- **Global Availability**
You can return your device for warranty repair/exchange at one of our worldwide Siemens location and you have the security of knowing the repair will be done by a factory certified technician
- **Traceability**
A certificate is available which shows a list of the warranty covered devices including their selected warranty period. Additionally, you can always check the availability of your device by entering the serial number into the Siemens PIA portal.

<http://www.usa.siemens.com/pia-portal>

Total Warranty Period	Part number
2 years warranty	GWK:PI-ExWarr-02
3 years warranty	GWK:PI-ExWarr-03
4 years warranty	GWK:PI-ExWarr-04
5 years warranty	GWK:PI-ExWarr-05

Note: Extended warranties are not available for SITRANS TO500 or pneumatics products.

Siemens standard and extended warranties apply to repair and replacement of devices that have failed under normal operating conditions due to material or manufacturing defects. In addition to extended warranties service contracts are available to cover installation and field service costs.

Our highly-skilled staff of trained engineers and specialists can also provide excellent start-up services according to factory guidelines on any new Siemens process instruments. Backed by an extended warranty of up to 2 years, you will be assured your instrumentation is properly calibrated and performing to expectations

Siemens PI Advantage+ :
Giving our customers a competitive advantage
