SERVICE AND FACILITIES MAINTENANCE

HESCO has a full-time, trained, dedicated team of service technicians that can service everything we sell.

Fully equipped service vehicles outfitted for confined space entry and traffic control.

Modern, spacious repair, testing and calibration center.

Field services: troubleshooting, testing, equipment evaluations, data validation, repair.

Calibration and preventative maintenance services plus valve and gate-rebuilds.

Factory authorized start-up, commissioning and training.

Full service, experienced facilities maintenance team.

PROCESS EQUIPMENT

AIR PURIFICATION TECHNOLOGY
Biological treatment for odors using recycled materials

MEMBRANE BIOREACTORS
A membrane bioreactor supplier, and pioneer of the Kubota Submerged Membrane Unit® (SMU).

CHEMICAL & SLUDGE PUMPING
Peristaltic and hose pumps for chemical feed and sludge pumping.

ENHANCED NUTRIENT REMOVAL
Energy-efficient treatment process technologies such as disc filtration, MBBR and lagoon treatment.

BLOWER TECHNOLOGY
A premier supplier of energy efficient turbo, screw, multi-stage and lobe blower technologies

POSITIVE DISPLACEMENT PUMPS
PVP offers a double disc style sludge pump that provides high performance and low maintenance.

DEWATERING & THICKENING
An award winning, ISO 9001-2008 certified; global provider of centrifuge separation equipment, parts, repair and service.

CHEMICAL FEED PUMPS & SYSTEMS
Engineered products for chemical feed applications, including hydraulic mechanical metering pumps, external gear pumps and custom systems.

BIOLOGICAL NUTRIENT RECOVERY
ABNR™ system leverages existing microbiology to recover excess P, N and other high-profile contaminants in wastewater.

ODOR CONTROL SYSTEMS
Wastewater odor control, emergency chlorine and sulfur dioxide gas removal and protection of critical electronics from corrosive H2S gas.

NUTRIENT RECOVERY
Systems for Phosphorus recovery from sludge and AD optimization with thermal hydrolysi

HEADWORKS & TREATMENT
Market leader in lift station design and manufacture, grit removal systems for municipal headworks.

FLUID LIFT GASIFICATION
Versatile biosolids drying and gasification.

TREATMENT + DISINFECTION
Innovative process technologies for the water and wastewater treatment industries, specializing in Ozone and UV disinfection technology.

WASTEWATER GRINDERS & SCREENS
Industrial size reduction technology; crushers, shredders, sewage grinders & fine screens.

BIOGAS CONDITIONING SYSTEMS
All facets of a biogas conditioning system, specializing in blower, compression and drying systems including BioCNG.

STORMWATER MANAGEMENT
Stormwater and Wastewater Management, and CSO Abatement Equipment

MATERIAL PROCESS & CONVEYANCE
The next generation of advanced polymer-activation technology and leading manufacturer and systems integrator of material process and conveyance systems.

MIXING & PUMPING
Equipment for water and wastewater treatment focused on mixing and pumping.

PROGRESSIVE CAVITY PUMPS
The #1 Progressive Cavity Pump in the EU is now in America - twin screw pumps, progressive cavity pumps, hopper pumps,

LIQUID & SOLID SEPARATION
BABA compliant equipment for municipal and industrial water and wastewater treatment focused on liquid/solid separation.

SOLIDS HANDLING EQUIPMENT
Shaftless screw conveyors, digester mixing and heating and walking beam flocculators.

SOLIDS SEPARATION & DRYING
Pumping, thickening, dewatering and drying technologies used to help plants reduce biosolids disposal costs.

Representing Innovative Process Equipment Manufacturers for over 50 years!

FLOW CONTROL EQUIPMENT

VALVE RE-MANUFACTURING

Complete rebuild or repair, field service and replacement parts for butterfly valves, cone valves and double disc gate valves.

CONE VALVES

Highly recommended and frequently specified cone valves

VALVES

Leading manufacturer of air valves, butterfly valves, check valves, plug valves, resilient wedge gate valves and double disc gate valves.

ENGINEERED VALVES

Market leading knife-gate and diaphragm valves.

AXIAL FLOW VALVES

Advanced engineered valve systems for critical control and safety applications.

FRP GATES / FLUMES / SHELTERS

Fiberglass flumes, flow control gates, packaged metering manholes, and pre-engineered structures

CUSTOMIZED VALVE SOLUTIONS

Manufacturer of strainers and a variety of valves including knife gate, butterfly, ball, gate, globe and check.

SLUICE & SLIDE GATES

A full range of high performance fabricated and cast iron gates to meet challenging flow control needs.

WATER CONTROL VALVES

American-made and BABA compliant; flow control valves, pressure control valves and cone valves with unparalleled long term value.

WATER CONTROL GATES

High quality, American-made and BABA compliant water control gates, stop logs and equipment including fully customized solutions.

ACTUATION

Renowned for reliability, designed and built to operate flawlessly in the harshest environments on earth.

WATERWORKS SPECIALTY PRODUCTS

Specialty tools such as fire hydrant wrenches, meter keys and wrenches, valve box and curb box keys, probe rods, etc.

FIBERGLASS PRODUCTS

Fiberglass-reinforced (FRP) flumes, weirs, manholes and shelters.

INSTRUMENTATION and OTHER SOLUTIONS

ONLINE EDUCATION

Customized O&M Training and online continuing education for the water and wastewater industry.

PIPELINE CONDITION ASSESSMENT

Asset management solutions, including pipeline video inspection with data management and analysis hosted software.

TRANSIT TIME FLOW METERING

High performance flowmeter systems employing multi-path transit-time principle to measure flowrate in a wide range of applications.

MANHOLE MONITORING

Web-based smart technology that provides real-time remote sewer overflow monitoring via a reliable satellite communications system.

Badger Meter

INTELLIGENT DIGITAL SENSORS

Badger magnetic and ultrasonic flow meters. ATI and scan analytical sensors.

SEWER and WATER INSURANCE PLANS

A turnkey custom solution for lateral repairs.

Fiberglass Fabricators Inc.

FRP TANK COVERS, WEIRS, BAFFLES

Structural components with the flexibility of open-molding to produce a wide variety of FRP industrial products.

Everywhere you look

SAMPLERS & METERING

Teledyne Isco is the leading manufacturer of wastewater samplers and open channel flow meters.

CHLORINE & CHEMICAL TANK SCALES

Cylinder & Ton scales for weighing Chlorine, Ammonia & SO2 to monitor and control gas feed.

TELEMETRY / TELOG

Field sensors and telemetry solutions for remote monitoring of drinking water distribution and wastewater collection systems.

PACKAGED SYSTEM DESIGN & ASSEMBLY

Provides design and assembly of heat transfer and chiller applications including hydronic boiler packages and hot water supply.
